Introduction to the Help! Kit

The first *Help! They Don't Speak English Starter Kit* was produced in 1989 by a task force of Virginia migrant educators who were getting an increasing number of requests from classroom teachers for information about and assistance with their limited English proficient (LEP) students. The *Help! Kit* has proved to be an excellent resource for teachers who are seeking ideas for recommended teaching strategies, lesson plans, and materials. This newly revised manual retains the original focus of providing helpful information to busy mainstream teachers who are seeking practical advice on how they can more effectively include, instruct, and nurture LEP students. It is important to emphasize that most of the strategies promoted here are recommended strategies for all students, not just LEP students.

The *Help! Kit* is designed to

- Provide mainstream teachers with teaching strategies and materials that benefit all students—particularly LEP students.
- Provide cultural information to help teachers better understand and appreciate language-minority students and their families.
- Introduce strategies to assist teachers with improving the reading and writing abilities of LEP students.
- Introduce math exercises and strategies that combine learning basic math skills with language development activities.
- Offer suggestions for how to encourage language minority parents to play an active role in their children's education.
- Propose alternative methods to monitor the progress of and evaluate LEP students, who often cannot be fairly measured with the same criteria as mainstream students.
- Provide a wealth of resources and references teachers can use to pursue more fully areas of interest covered in the *Help! Kit*.

The *Help! Kit* is divided into nine chapters. Resources related to the topics covered in a chapter can be found at the end of the chapter. The last chapter contains selected articles of interest for teachers who wish to pursue relevant and timely topics in a more in-depth way. As you make your way through the *Help! Kit*, keep reminding yourself that

"limited English proficient" does not mean
"limited Thinking proficient"!
